TERMS & CONDITIONS OF SALE

Effective January 1, 2025

SALES POLICY: Possesion of this catalog does not constitute an offer to sell. *Our prices are subject to change without notice. All orders will be shipped and invoiced at the prevailing price at the time of shipment. *We reserve the right to adjust orders to standard package unless otherwise stated on the purchase order. We have no minimum order.

BILLING TERMS: 2% 10th & 25th, net 30 Days. Invoices dated 1st-15th are due on the 25th of the same month for discounts to apply, invoices dated 16th - last day of the month are due the 10th of the following month for discount. Otherwise, all invoices are due net 30 days from invoice date. Unearned cash discounts will be left open as unpaid balance to the account. Any amount past due is subject to a finance charge on the total past due balance in accordance with the Truth-In-Lending Act.

DIRECT SHIPMENT: We will ship direct to any destination specified in accordance with CMC sales policy and freight terms.

FREIGHT ALLOWANCE: Full freight allowed and prepaid on orders totalling $1500.^{00} net value or more at one time to one destination. No freight allowed on orders less then 1500.^{00} net value under any circumstances. We reserve the right to route shipment via most economical transportation. If special routing is requested, which results in a higher rate, the additional amount will be charged to the customer. Parcel Post and UPS charges will be prepaid and charged back on the invoice. A $10.^{00} service charge will be added to the invoice on all requests for bus shipment. All claims for shortage and damages should be made to the appropriate freight company. Claims for shortages from CMC must be reported within seven (7) Days from receipt of merchandise.

TAXES OR DUTIES: Wholesale customers assume full liability for any taxes or any other charges assessed or imposed by an authorized goverment agency. All wholesale customers are required to furnish CMC with a tax exemption certificate, otherwise applicable State sales taxes will be charged.

RETURNED GOODS: CMC will not accept returned merchandise from customers without prior written approval from CMC Office Headquarters. All returns must be prepaid. All returns made for reasons other than defective merchandise are subject to 15% restocking charge. CMC will not accept return of discounted merchandise.

GUARANTEE: The CMC guarentee shall be limited to replacement or credit, not to exceed the original purchase price, and shall not include any installation or labor charges of any kind. All CMC merchandise is guaranteed against defects in workmanship or material for a period of one (1) year from the date of purchase. CMC retains the right to determine if merchandise is defective, and its judgement shall be final in such matters.

SPECIAL QUOTATIONS: We shall submit special quotations upon request.

PLEASE NOTE: The names of manufacturers mentioned in this catalog indicates brands our products will fit. It is not intended to cause the customer to assume that the replacement part is manufactured by the same company whose parts it may replace, unless the part is specifically labeled as a "Genuine OEM Part." The original equipment manufacturer has no responsibility for the quality or suitability of Component Manufacturing Corporation repair parts. Pictures in this catalog are intended as a guide only, and unless specified, do not represent any particular brand.

APPROVALS AND LISTINGS

FM	IAPMO	SBCCI	ICC ES	ASTM	
APPROVED 15 PSI					Plus...many other local and state codes
Approved to FM 1680 Class I, 15 PSI	Listed by IAPMO - #2189	SBCCI Evaluation Report #9488 for Code Compliance	Refer to ICC Evaluation Report ICC-ES 94-20	Conforms to: ASTM A-666 ASTM C-564	

Clamp-All® HI-TORQ 80 and HI-TORQ 125 Couplings are designed and suitable for use with hub-less Cast Iron Pipe and fittings conforming to ASTM A-888 for all storm and sanitary DWV piping systems above and below grade. Clamp-All® Couplings are suitable for joining Cast Iron to Plastic, Steel or Copper Pipe in all storm & sanitary drains, waste, and vent piping applications. All couplings, in conjunction with Snap-All® Bushings, are suitable for joining different diameters and materials in all DWV piping applications.

HI-TORQ 80 PSI

- ASTM A-666 and ASTM C-564
- Approved to FM 1680 Class I, 15 PSI
- 28-Gauge Type 304 Chromium Nickel SS Shield (.016)
- One-piece molded neoprene gasket
- High corrosion resistance
- Pipe Diameter Range 1½”– 10”
- Best hydrostatic seal in the industry
- Strongest coupling in the industry
- High tolerance for pipe-to-fitting diameter
- Gasket is a sure-fit every time
- Prevents failure due to shear, deflection or vibration

INDUSTRIAL GRADE | SAFE IN ALL SYSTEMS | EASY TO USE & IT WORKS!

Patented technology provides biological stimulation at the cellular level to digest grease, oil, paper, salts, organic matter and even petroleum products. HotRod products reduce potential contamination within the system by reducing solids, sludge and septic odors, improves percolation in the leach field, and lowers potential groundwater contamination.

HOTROD RV HOLDING TANK TREATMENT

- Reduces or eliminates tank odors

DG PED EVO

Automatic pressurization system with inverter

Clean water

ALL IN ONE

- Self-priming multistage pump
- Frequency inverter
- Expansion tank
- Check valve
- Pressure and flow sensor

INSTALLABLE ANYWHERE

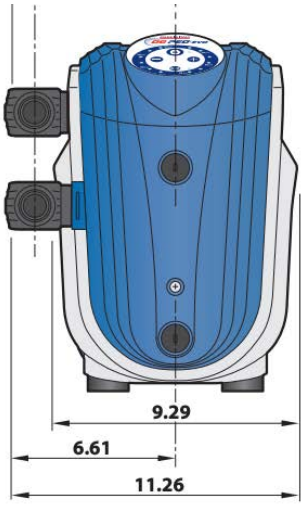
Thanks to its compactness, quiet operation, and 360° adjustable connections, DG PED EVO can be installed anywhere

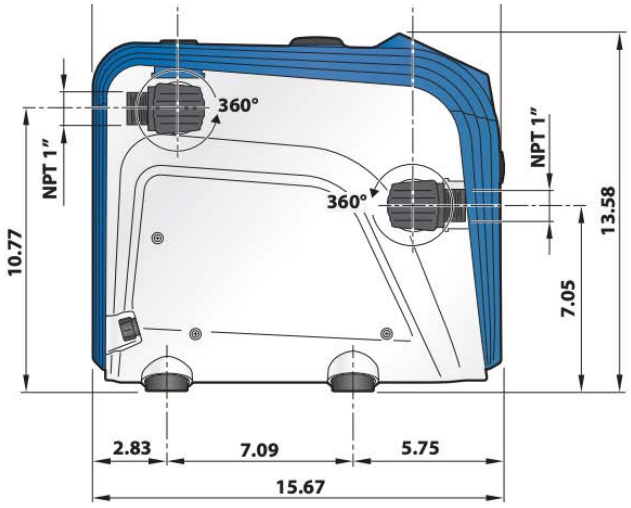
DG PED EVO SYSTEM

DG PED EVO is a cutting-edge, automatic pressurization system featuring a high-efficiency, self-priming pump with multiple impellers. **Comes complete with** a storage tank, pressure and flow sensors, and a check valve, all designed to work quietly and efficiently.

This compact powerhouse stands out for its advanced electronic inverter control, which intelligently manages the system performance by:

- keeping the pressure constant according to water usage
- monitoring hydraulic and electrical conditions to safeguard against malfunctions
- allowing for integration with another DG PED EVO unit through an optional expansion card
- adapting seamlessly to any type of pressurization system, even existing ones
- reducing electrical consumption with lower startup and running currents, achieving greater energy efficiency





DG PED 3 EVO: **33 lbs.**
DG PED 5 EVO: **35 lbs.**
